**[4. I recently tested, but my grade hasn't posted. How long does this usually take?](#)**

Test scores can take up to 72 hours to process in AUSIS. If it has been more than 72 hours since you have tested and your score has still not posted, please have your supervisor, Unit Training Manager, or Test Control Officer send us a copy of your Unofficial Score Report via our support website system. <https://auservicedesk.af.edu/sp>

---

**[5. I cannot order my test. Why not? What can I do?](#)**

There can be multiple reasons for this.

- A. Your test is already ordered. In "View Progress" Do you see an exam number with no grade next to it? That is the test for you to take.
  - B. You have either timed out (gone past your enrollment date) or have course failed.
    - You just need to submit an EPME Request or call student support to extend you in the course. (This will also prohibit you from taking a test, ordering a test, or even getting into Canvas.)
-

## **6. Why is my extension not working in my course?**

DL does not allow for course extensions. The display will show “extend for 0 days.”

---

## **7. The Edition number of the course material I am studying is different from the listed material. Am I studying the right material?**

As long as the Version number of the Course is the same, you are studying the correct material. Changes in Edition numbers reflect changes to things like grammatical errors and outdated web links. The only time testable material changes are when there are changes to the Version number of the course.

You will either be enrolled in NCO DLC (legacy) or NCO DLC 2.0 (New), they are mutually exclusive.

---

## **8. What happened to Blackboard? It was replaced by Canvas.**

### **8A. Canvas is only usable for Legacy SNCO and NCO DLC, NOT ALS.**

#### **8B. I want to get into Canvas?**

Go to <https://lms.au.af.edu/>

. Usernames are based on current AU Portal Email selected for notification.

Please follow the steps below if unable to login with the above information:

- 1) Attempt to reset password by clicking Forgot password using only the email selected for notification in AU Portal. If email from Canvas was not received move onto step 2.
  - 2) Submit an EPME Request for Canvas Access at the new ticketing system, <https://auservicedesk.af.edu/sp>
- 

## **9. Why does the course show me as an Amn, 1st Lt or 2nd Lt?**

Anytime you change anything in your demographics just ensure you change your rank to what it should be before you hit save. When the page refreshes it will revert back to LT, look for the red updated notification on the left of the screen. Do not select save again or it will update back to LT.
