Position Description (Duty Description): Incumbent will perform as an NGB/A5/8-AFWIC (Air Force Warfighter Integration Capability) action officer and be responsible for the preparation, validation, analysis, and distribution of Air National Guard Strategic Planning documents. Leads ANG AFWIC team in Air Superiority design elements from innovation through concept exploration, experimentation, wargaming, and

capability development, ultimately shaping the future force design. Leverages vast personal Professional experience and insights of Major and Combatant Commands across Air Superiority. Ensures Air Superiority capabilities are fully integrated into the overall, holistic Air Force blueprint across a 15-year horizon. As the Chief of the Global Precision Attack FIT the incumbent will lead the design elements from innovation through concept exploration, experimentation, wargaming, and capability development, ultimately shaping the future force design. Leverages vast personal professional experience and insights of Major and Combatant Commands across Global Precision Attack. Ensures Global Precision Attack capabilities are fully integrated into the overall, holistic Air Force blueprint across a 15-year horizon. Additionally, the incumbent will assist in developing and advocating the ANG position on strategic level documents and communication to coordinate within HAF/A5, AFWIC Division and Air Force MAJCOMs. Will also serve as an advisor to Air National Guard senior staff and leadership in determining the most appropriate response in the areas of ANG strategic and long range plans. Will be expected to conduct meetings with various key personnel within the Air National Guard and outside agencies in order to discuss, evaluate, and determine courses of action relative to strategic planning, force structure analyses and other long range plans.
