(Member must have appropriate clearance for the position)

LOCATION: Joint Artificial Intelligence Center, 1225 S. Clark Street, Arlington, VA 22202

WHO MAY APPLY: Qualified ANG members only

POC Position: Lt Col Andrew Wonpat, andrew.r.wonpat.mil@mail.mil, (410) 918-6365
COL Kim McGhee, kim.s.mcgee.mil@mail.mil, (703) 692-1350

Background:

Mission of the Cyber Mission Initiative (MI) is to accelerate the adoption and integration of Artificial Intelligence and Machine Learning (AI/ML) to the cyber warfighters in DoD. Tools are being developed and/or existing software/hardware leveraged by implementing AI models for cyber operators, IT professionals and analysts within the enterprise for the purpose of protecting the DoD Information Networks (DODIN) and reducing timelines for cyber-threat situational awareness and analyses, using AI anomaly detection and network exploration techniques.

Position Description (Duty Description):

Serve as Action Officer and/or Product Manager for the Cyber Mission Initiative (MI) at the Joint Artificial Intelligence Center (JAIC). Coordinate across academia, industry, and governmental inter-agency partners to develop and field Artificial Intelligence/Machine Learning (AI/ML) capability within fast-paced sprint methodology.

Responsible for the planning, procurement and execution of Cyber AI projects; define scope, define start and a define finish; primary contact for any issues or discrepancies arising from within Cyber MI; maintain the progress of project timeline, mutual interaction with peers and Director, Cyber MI, Capability Development Manager and stakeholders; reduce the risk of overall failure; maximize benefits, and minimize costs.

Minimum Qualifications Required:

Experience in planning, operations and execution; ability to solve complex problems; documenting progress and reporting outcomes, analyzing, tracing, prioritizing and requirements; controlling change and communicating to Director, Cyber MI for approval; responsible for the current and planning future capabilities and projects in a team environment.

Experience leading highly skilled teams to accomplish objectives in time-constrained environments without extensive guidance or supervision. Skilled in communicating abstract concepts to non-technically trained personnel. Prefer experience with integrating software systems within government ecosystem at scale. Experience in capability development and project management also preferred.
