POC Position: COL Ken Kliethermes, kenneth.j.kliethermes.mil@mail.mil, (412) 268-6804
COL Kim McGhee, kim.s.mcgee.mil@mail.mil, (703) 692-1350

Background:

The primary purpose of the Joint Warfighting Mission Initiative (MI) is to leverage AI technology to help the Combatant Commands and the Joint Staff solve critical strategic, operational, and tactical warfighting problems in the execution of various OPLANs. The Joint Warfighting NMI focuses its efforts on strategic, operational, and tactical warfighting priorities described by the Joint Staff and Combatant Command Integrated Priority Lists (IPLs). The title “Joint Warfighting” is designed to communicate that the JAIC has a team specifically committed and focused on supporting tasks generally associated with the warfighter. That is, those engaged in direct combat with an enemy force. The JW MI will focus on (1) Increasing the speed, accuracy, and synchronization of lethal and non-lethal effects, (2) Command and Control of the Joint Force across all domains (3) Enabling rapid power projection and strategic maneuver and other lines of efforts tailored to sustain and maintain the Joint Force and penetrate enemy defenses.

Position Description (Duty Description):

Serve as Action Officer and Product Manager for the Joint Warfighting Mission Initiative (MI) at the Joint Artificial Intelligence Center (JAIC). Coordinate across academia, industry, and governmental inter-agency partners to develop and field Artificial Intelligence/Machine Learning (AI/ML) capability within fast-paced sprint methodology.

Responsible for the planning, procurement and execution of Joint Warfighting AI projects; define scope, define start and a define finish; primary contact for any issues or discrepancies arising from within Joint Warfighting MI; maintain the progress of project timeline, mutual interaction with peers and Director, Joint Warfighting MI and stakeholders; reduce the risk of overall failure; maximize benefits, and minimize costs.

Minimum Qualifications Required:

Experience in planning, operations and execution; ability to solve complex problems; documenting progress and reporting outcomes, analyzing, tracing, prioritizing and requirements; controlling change and communicating to Director, Joint Warfighting MI for approval; responsible for the current and planning future capabilities and projects in a team environment.

Experience leading highly skilled teams to accomplish objectives in time-constrained environments without extensive guidance or supervision. Skilled in communicating abstract concepts to non-technically trained personnel. Prefer experience with integrating software systems within government ecosystem at scale. Experience in capability development and project management also preferred.
